## APPLANATION TONOMETER AT 900 D

### The gold standard

The digital Goldmann tonometer AT 900 D pairs the positive experience of many thousands of Goldmann tonometer users with the opportunities of state-of-the-art digital technology.

# Facilitating an ergonomic workflow

Wireless transfer of the IOP readings and left/right eye position allows direct integration of the AT 900 D\* tonometer into an existing patient information system, thus facilitating an ergonomic workflow.

AT 900 D, GOLDMANN GOES DIGITAL

## Magnetic unit for OD/OS recognition

This accessory is supplied as part of the connection kit for the digital tonometer AT 900 D. This unit is mounted underneath the Haag-Streit headrest and allows in conjunction with the EyeSuite tonometry software and Bluetooth OD/OS recognition.

AT 900 D, GOULD MANN GOES DIGITAL

## USB-Bluetooth adapter

This accessory is part of the connection kit for the digital tonometer AT 900 D. Via the USB-Bluetooth adapter data from the tonometer is transmitted in conjunction with the Magnetic unit for OD/OS recognition and EyeSuite Tonometry software.

TONOSAFE

## Disposable tonometer prisms

Tonosafe™ is a disposable measuring prism for all Goldmann applanation tonometers as well as the Perkins tonometer. Tonosafe™ disposable prisms are a convenient, effective method of reducing the risk of cross infection between patients.

GOLDMANN PRISMS

## Excellent optical quality

The reusable Goldmann measuring prisms are distinguished by their optical and mechanical performance which allows for fast and reliable measurements in daily practice. They are largely handmade by experienced workers, and are checked for tight tolerances in weight, optical quality, durability and for consistent measurement results.

ACCESSORIES

# Simple and safe disinfection of reusable prisms

For efficient disinfecting routines we recommend Haag-Streit Desinset. This instrument set is ideal for disinfection of reusable tonometer measuring prisms and comprises cleaning- and storage container.

ACCESSORIES

## Fluorescein strips

Haag-Streit Fluorescein strips are used for the purpose of diagnosis on the anterior outer parts of the eye. Fluorescein is used to stain the tear fluid on the cornea during applanation tonometry and diagnosis.

## ACCESSORIES

# FLUO 900, sterile fluorescein strips

FLUO 900\* are sterile, individually-wrapped ophtalmic strips which are impregnated with Fluorescein Sodium dye. They are used for evaluating contact lens fitting.

## ACCESSORIES

# Control Weight

The check weight is to be used as part of monthly control procedure. Five circles are engraved on the weight bar. The middle one corresponds to drum position 0, the two immediately to the left and right to position 2 and the outer ones to position 6.

One of the marks on the weight corresponding to drum position 2 is set precisely on the index mark of the weight holder. For more details check the manual.
