HS HI-R NEO 900

Strong name - Strong product

Enjoy high optical visualization with HAAG-STREIT SURGICAL's microscope HS Hi-R NEO 900 for challenging tasks turning into smooth cases.

HS HI-R NEO 900

Better vision - the key to higher precision

Perfect examples of the product's optical quality are its large stereo base of 25 mm for best 3D vision and its large depth of field. These allow high depth appraisal and limit focusing procedures. Looking through the oculars will tell you more than a thousand words could.

STANDARD FEATURES

Configured to work

Due to its high magnification HS Hi-R NEO 900 allows best visibility of all small structures. The focusing is very precise with a range of 50 mm. Fine and precise lateral movement are possible within a range of 60 mm x 60 mm via X-Y coupling.

ACCESSORIES

Possibilities on demand

Depending on the demand, the operating microscope HS Hi-R NEO 900 can be configured in a modular way. Various optional accessories are available.

C.DUO

Perfect positioning in hand surgery

The C.DUO offers face-to-face observation for two surgeons in plastic hand surgery, lateral ports, and a separate camera connection for c-mount cameras.

MAGNIFEYE

Seeing each detail

MAGNIFEYE can be added to meet the highest demands in terms of magnification of up to 39x.

C.INJECT 900

Enrich your vision

The image injection system C.INJECT 900 provides additional information as neuromonitoring at a glance. Data is injected in exceptional resolution binocularly.

HS MIOS 5

Comprehensive yet intuitive recording

The prime functions of HS MIOS 5 are the recording of operation scenes as well as the capturing and recording of snapshots, together with proper identification of patient and hospital data. Images and video streams can be stored on DVD-R/-RW, HDD, USB flash drive, and external USB hard disk drive or transmitted to the hospital PACS via DICOM.

C.MOR HD / HD³

Compact HD camera

C.MOR HD is a full HD color video camera designed for the HAAG-STREIT SURGICAL microscope. Its ultra-compact camera head houses a 1/3" CMOS sensor that meets very high standards. In its 1 and 3-chip version, images are crisp and sharp. Different user settings allow individual adjustments.

EF 5000 AND EF 5001

Ergonomic control

For most ergonomic control of the microscope HAAG-STREIT SURGICAL recommends its corrosion-proof foot switches. While EF 5000 is connected to the floor stand via cable, EF 5001 controls 14 functions of the microscope wireless via Bluetooth.

M.DIS AND C.MON HD

Display

Best control of the camera image and additional opportunities for observation are provided through monitors. Those may be mounted directly to the microscope head to serve the surgeon and the assistant (M.DIS) or on the floor stand for further staff (C.MON HD).

FLOOR STANDS

More than just carrying systems

For the carrying system various options arise. These including the choice of illumination (halogen and LED), brakes (electromagnetic or manual) as well as size. Choose your floor stand analog to your comfort and space requirements.

FS 3-45

Perfect reach, stability, flexibility

With its extreme arm length of 1600 mm the floor stand FS 3-43 allows great flexibility for positioning in the OR. The automatic balancing easily and fast adjusts the system when accessories are changed. Additional holders for foot switches, trays for camera control units, and a high resolution monitor or other accessories may be attached to the column.

FLOOR STAND CONTROL

At a glance

The floor stand is computer-controlled via a touch screen. Here illumination and balancing can be controlled. Additionally, the individual start settings of the microscope parameters can be programmed for each surgeon.

LED

Powerful light

The floor stand is equipped with a brilliant white and clear LED illumination. In its 3rd generation, the LED features a high CRI (Color Rendering Index) that shows colors most naturally. The homogenous light is free of hot spot and without IR and UV radiation extremely save. Its lifetime of 50,000 hours maintance is highly ecomomically.
